

## Introduction to Bone Grafting Techniques with Hands-On Training

**Presenter:** Dr. Joseph A. Favia is a 1993 graduate of Loyola University School of Dentistry. He has received advanced dental training from The Peter Dawson Academy for Advanced Dental Education and The Pankey Institute. He also completed an Advanced Bone Grafting mentorship with Dr. Joel Rosenlicht. From 1997-2011, Dr. Favia founded and chaired The Windy City Classic Celebrity Golf Tournament which has raised over 1 million dollars toward cancer research in memory of Jim Valvano and Walter Payton. Dr. Favia served as the 2010 President of the Arlington Heights Chamber of Commerce where he founded The Taste of Arlington Heights that is now the Chambers largest annual event. In 2011, he was honored as the Business Leader of the Year by the Arlington Heights Chamber of Commerce, received a Heart of Gold Award from the Village of Arlington Heights in 2013 and was voted Best Dentist from Daily Herald's Readers Choice Award in 2013 and 2014. He has been teaching implant surgical procedures internationally to general dentists since 2007. He founded The Midwest Surgical Institute for Dental Implants after many requests from doctors wanting more courses from him. He has been providing dental surgical procedures to his patients since 2003. Dr. Joe lives and maintains a private practice in Arlington Heights, IL with his wife and three children.

**Date:** September 22-23rd.

**Location:** The Center for Tissue, Innovation and Research in Kettering, OH

**Hotel:** A block of rooms have been reserved under "Maxxeus Dental" at the Courtyard Marriot in Beavercreek, OH for \$115.99 per night. To reserve a room please call 937-427-3914 at least one month prior to the event.

### Course

**Description:** During this course Dr. Favia will discuss bone grafting techniques around socket grafting, ridge augmentation, and sinus lifts. He will discuss the specific products to utilize depending on the technique and how to implement them into your daily practice with great success. The course will also include a tour of Community Tissue Services with information on tissue donation and processing.

On the second day of the course, Dr. Favia will facilitate our wet lab by demonstrating live each technique in detail and then the attendees will follow suit utilizing porcine mandibles to practice mastering the techniques demonstrated.
